

LEGO Zoo

Can you create a robotic animal?

Think like an artist:

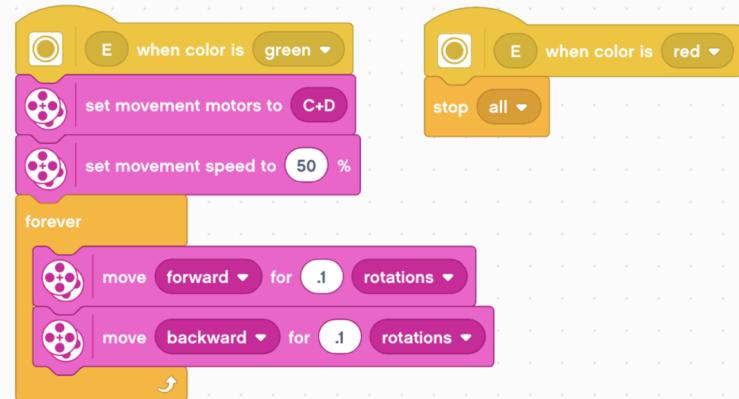

How will your materials selection help make your animal look realistic?

Think like a zoologist:

What kinds of behaviors do animals exhibit?

EXAMPLE IDEA: ELEPHANT

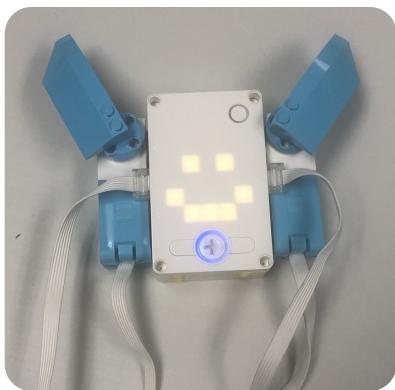

Feel free to come up with something completely different!

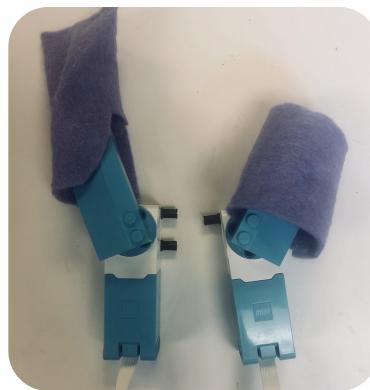

Flip over for more details

BUILD IT

Build the animal skeleton using SPIKE Prime

Use felt and other craft materials to make the outside

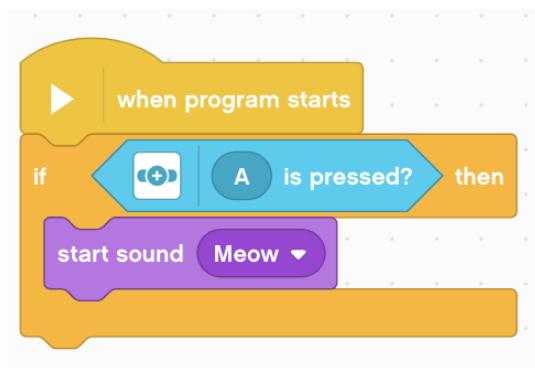

Attach using tape, twist-ties, and hot glue!

CODE IT

Can you make your animal play a sound when you pet it?

Is your animal sensitive to light?
